## SUBJECT INDEX TO TECHNICAL SECTION

- Acetone, in urine, test for, 84
- Acid hippuric, method for in urine, 136
- Albumin, serum, gravimetric method for, 3
- Alcohol, determination of in tissue and body fluids, 159
- Amylase, blood, method for, 180, 181
- Amylase, method for, 85
- Annotations, 40, 85, 138, 180
  
- B. Welchii, identification of, 27
- Basal metabolism, technique for, 91
- Bacteria, stained, survival of, 68
- Bath, paraffin, a simple, 73
- Blood amylase, method for, 180, 181
- Blood chemistry, deproteinizing reagent for, 9
- Blood counting chamber, clip for, 32
- Blood diastase, method for, 180
- Blood glucose, determination of, 60
- Blood glucose, method for, 123
- Blood grouping, concentration of serum for, 83
- Blood grouping, technique of, 145
- Blood pipette, closure for, 42
- Blood transfusion, equipment for, 34
- Blood transfusion, blood grouping for, 145
- Blood urea, determination of, 40
- Bone marrow, stain for, 72
- Bone marrow, stain for, 83
- Bone saw, home-made electric, 133
- B. welchii, identification of, 173
  
- Cancer tests, 139
- Chamber, blood counting, clip for, 32
- Chemistry, blood, deproteinizing reagent for, 9
- Clip, for blood counting chamber, 32
- Container, aseptic, 41
- Cyanate, blood, determination of, 192
- Diacetic acid in urine, test for, 84
- Diastase, blood, method for, 180
- Darkfield, method for, 83
- Embedding box, plaster of paris, 84
- Flocculation tests, comparison of Kline and Mazzini, 80
- Fluids, embedding of, 176
- Gas analysis, technique for, 64
- Glucose, blood, method for, 123
- Glucose, blood, determination of, 60
- Gold Sol, preparation of, 137
- Hippuric acid, method for in urine, 136
- Index, diagnostic, 179
- Kline test, comparison with Mazzini, 80
- Label, slide, permanent, 134
- Mange, treatment of, 138
- Mazzini flocculation test, comparison with Kline, 80
- Metabolism, basal, technique for, 91
- Microaspirator, 128
- Opsonocytophagic tests, stain for, 41
- Paraffin bath, simple, 73
- Photographic technique, 139
- Pipette, blood, closure for, 42
- Pipette, calibrator for, 128
- Potassium, serum, method for determination of, 119
- Procedures for trial, 82, 136
- Protein, serum, gravimetric method for, 3
- Prothrombin, determination of, 187

- Reaction, transfusion, prevention of, 34
- Reagent, deproteinizing, 9
- Rheumatic fever, pathogenic agent in, 138
- Sac, colloidion for concentration of body fluids, 176
- Saw, bone, home-made electric, 133
- Sedimentation tube, holder for, 86
- Serum albumin, gravimetric method for, 3
- Serum, potassium in, determination of, 119
- Serum, protein, gravimetric method for, 3
- Serum, rapid heating of for slide tests, 55
- Slides, permanent labeling of, 134
- Smears, preparation of, 183
- Spinal fluid proteins, determination of, 195
- Standards, hematological, 75
- Streptococci, hemolytic, isolation of, 70
- Streptococci, pathogenic, testing of, 20
- Sugar, urine, determination of, 195
- Sulfapyridine, determination of, 193
- Syphilis, rapid heating of serum for slide tests for, 55
- Syphilis, spinal fluid reaction, 137
- Tissue, determination of alcohol in, 159
- Tissue, diagnostic index for, 179
- Tissue, frozen section method, 189
- Tissue, silver impregnation methods, 13, 47
- Toxicology, note on, 76
- Transfusion, blood, equipment for, 34
- Transfusion, blood grouping for, 145
- Trichinae, demonstration of, 86
- Trichinosis, in Cleveland, 85
- Urea, blood, determination of, 40
